Sylvia—I'm stuck on a call that could run a few minutes past 4 PT. I'll call you as soon as possible, and hopefully won't be more than a few minutes late. Thanks -- Roger

4 PT will be fine for me – Stacey and Jessica are welcome to be a part of call on site access, but they may have other things they need to attend to at that time.

Sylvia—I could call you at 4 PT or later today, or if Stacey wants to participate and that's too late I could chat tomorrow afternoon ET/morning PT. Thank you -- Roger

Sounds good - I am available until 10:30, and then again in the afternoon. Just let me know.

Sylvia—Just to update you, I have a call with David and Barbara at 9 PT and will update you after that. I anticipate it will probably make sense for us to have a brief call at your convenience. Thanks and have a good morning. -- Roger

Subject: request for site access at Redwood City salt ponds

Hi Roger,

Hope this finds you well and enjoying the New Year. Would it be possible for us to get access to the Redwood City salt ponds the last week of January? The purpose of the site visit would be to check ground terrain and water surface elevations. We haven't yet received the water quality data that we requested from Cargill, so we might also want to take some salinity measurements. We would like to complete the visit in one day, but depending on site conditions (e.g. road and levee conditions), might need an extra day or two. The group going to the site would be no more than three people. Please let me know if this can be arranged and if you need more information from me.

Thanks in advance for your assistance on this,
Sylvia
